

Education in the Health Professions Track (EHP)

The IDD M.S. program now offers education and training of healthcare professionals in the context of evidence-based practice and professional development for allied healthcare professionals.

Competencies developed in the EHP track:

- Deliver effective interventions based on evidence-based practice
- Demonstrate professional development
- Apply current research
- Develop professional practice
- Demonstrate professional practice
- Utilize various professional practice

Program Structure

The EHP Track has a curriculum that is distinct from the core IDD courses. Like the normal IDD M.S. program, most students complete their coursework in the health professions which includes a capstone project. The capstone project is a 30-hour course.

- EDL 510 - Theories
- SED 599 - Foundations
